PRESEC
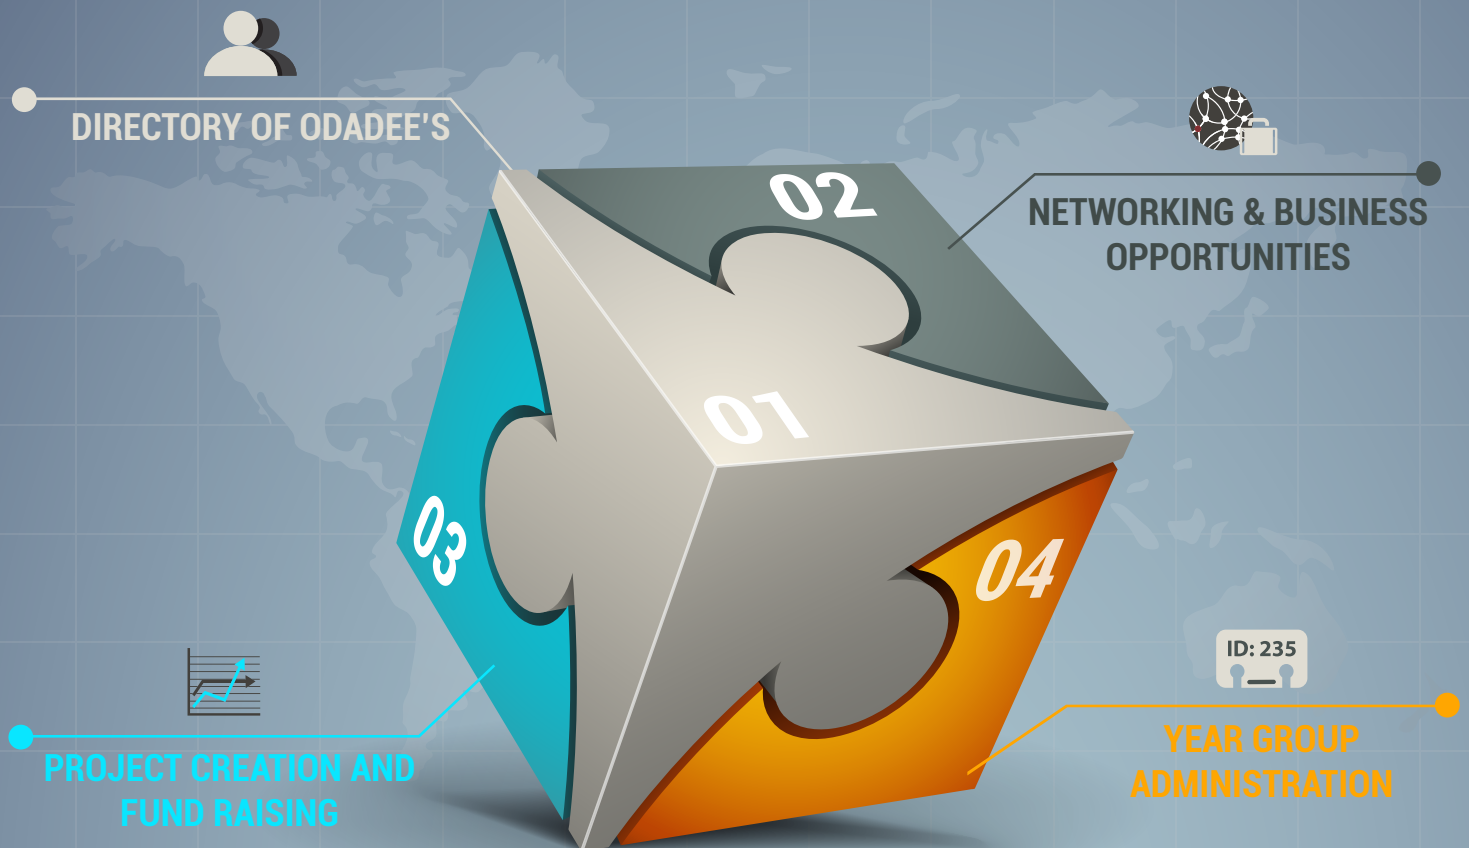

HOW IT WORKS

The Alumni Portal has 4 core functions that set it apart from other Alumni websites.
It is, at its core, a highly exclusive social network, built to promote Presec's Alumni causes, while creating a
social network for Presecans around the world to communicate, share ideas and do business with each other.

These are the core modules:

PROJECT CREATION AND FUND RAISING

ID: 235

YEAR GROUP ADMINISTRATION

The dashboard module includes a profile page forum, a messaging/email module and advertising space for Presecans.

The dashboard also allows members to publish their stories/ideas/thoughts and the ability to share it on social media.

The messaging feature allows you to contact any Presecan registered on the dashboard, it also has a map module showing the locations of registered Presecans around the world.

Project Creation & Fundraising. The dashboard will allow members to crowd fund multiple projects in aid of the school or their own personal projects.

The dashboard allows members to create projects and raise funds for their personal projects or for the school. Think crowdfunding for Presecans.

Year group Administration. It is possible using this platform to set up multiple year groups and easily manage dues, meeting minute's events and projects.
